

# LANOR JEPHTHAH KWAME

Akosombo, GH | [mclanorjeff@gmail.com](mailto:mclanorjeff@gmail.com) | [linkedin.com/in/lanor-jephthah](https://www.linkedin.com/in/lanor-jephthah) | [github.com/lanor-jephthah1](https://github.com/lanor-jephthah1)

## PROFESSIONAL STATEMENT

---

Computer Engineering student and AI/NLP practitioner focused on building practical, user-centred intelligent systems. Skilled in Python, Flask, and modern NLP workflows, with experience developing chatbots that use emotion detection and semantic recall (RAG) to support long, meaningful conversations. Strong analytical thinking, fast learning, and dependable leadership, bringing clarity, structure, and effective communication to technical projects from design to deployment.

## EDUCATION

---

### University of Energy and Natural Resources (UENR), Sunyani

**Programme:** BSc Computer Engineering

**Expected:** Oct. 2026

Relevant Courses: Computer Literacy, Engineering Mathematics I-II, Linear Algebra, Numerical Analysis and Computation with MatLAB, Statistics and Probability for Engineers, Computer Aided Design, Linear Electronics, Distributed Computing.

- 
- **Skills:** Python, C++, HTML+CSS (Bootstrap), Microsoft Office Suite, AutoCAD, Proteus, Multisim
  - **Interests:** Data Analytics, Cloud Computing, AI and Machine learning, NLP, Gaming.

## RELEVANT EXPERIENCE

---

### Volta River Authority, Akosombo

Nov 2025 – Dec 2025

#### MIS Intern

- Delivered Level 1 IT support within the Hydro Generation Station, managing hardware and software troubleshooting.
- Performed LAN installation, cable termination (CAT6), and switch patching in the server room.
- Deployed and supported enterprise tools (Oracle Fusion, ERP) and managed domain-joined workstations.
- Carried out workstation preventive maintenance and repairs, helping to minimise downtime

### Volta River Authority, Akosombo

Nov 2024 – Dec 2024

#### MIS Intern

- Revamped workstation setups for various departments, delivering fully configured hardware with necessary drivers and ERP software ahead of schedule.
- Streamlined the new user onboarding process by preparing hardware and configuring domain accounts prior to staff arrival.
- Engineered solutions for legacy hardware, such as sourcing specific drivers for older peripherals to ensure compatibility with modern Windows OS.

### 100 Days of Code | The App Brewery

Oct 2023 - Jan 2024

#### Software Developer Intern

- Embarked on a skill development journey with Dr. Angela Yu to develop projects including Flash Card App and Stock Trading News Alert Project
- Introduced to Web Scrapping, Python Game Development, Data Science, Python Scripting and Automation

### Salesman – Ketty Ventures, Akosombo

Jun 2021 - Present

- Assisted customers with product selection and purchases.

- Managed inventory and restocked shelves.
- Handled cash transactions and maintained sales records.
- Ensured a clean and organized store environment.

## LEADERSHIP EXPERIENCE

---

**NSMQ TEAM LEAD** | *Manya Krobo Senior High School*

**Jan 2022 – Jun 2022**

Student

- Led and coordinated the team's preparation for the National Science & Maths Quiz (NSMQ) Eastern qualifiers
- Represented the team in competitions and decision-making processes

## AWARDS/ACHIEVEMENTS
